

Vendor Session Presentations

Wednesday, October 20

High Throughput Separations and Pharmaceutical Profiling by Multiplexed Capillary Electrophoresis with Absorbance Detection – CombiSep, Inc.

Jeremy Kenseth, Kit-sum Wong, Andrea Bastin, and Dennis Tallman

Trace NMR Contract Services at Novatia – Novatia, LLC

Dave Detlefsen

FAIMS – So What? - Ionalytics Corporation

Kevin Mansfield

Advanced Applications Using the LEAP Product Lines – LEAP Technologies

Michael Sabatino

Rapid High Throughput Compound Profiling Using the ExpressLC™ - Eksigent Technologies

Jeff Jensen

HPLC-chip/MS: NanoLC/MS made easy – Agilent Technologies

Tom van de Goor

Dionex Today - From Nano to Semi-preparative LC for High Performance Separations of Proteins, Nucleic Acid, Oligosaccharides, and Small Molecules - Dionex

Terry Sheehan

IONICS HSID Interface for EP 10+ and API 3000™: Orthogonal Laminar Flow and Enhanced Desolvation – Inocis Mass Spectrometry Group, Inc.

Dragan Vuckovic

The Personal AutoNanospray™ System – Phoenix S&T, Inc.

Sau Lan Tang Staats

High Throughput Quantitative Applications for Drug Discovery & Development by ACQUITY UPLC/Quattro Premier – Waters Corporation

Kate Yu

Liquid Chromatography-based Assays for Secondary Screening – Nanostream, Inc.

Steve Hobbs

Endogenous Phospholipids and Matrix Effects in Bioanalysis – Tandem Labs

Pat Bennett

Combined Tissue Distribution, Tissue Quantitation, and Metabolite Profiling using QWBA, LC/FSD, and LC/MS/MS – QPS, LLC.

Zamas Lam

Application of a new ESI-ion trap-time of flight mass spectrometer in the identification of isomeric drugs – Shimadzu Scientific Instruments, Inc.

Shaun Bilsborough
