

JOB ANNOUNCEMENT

PROJECT MANAGER

Alta Analytical Laboratory is seeking an experienced Project Manager to *manage the conduct of bioanalytical LC/MS/MS pharmacokinetic studies* in accordance with GLP and FDA regulations and guidelines. Assume overall responsibility for the conduct of *study sample analysis* to include resource planning, data approval, stability, scientific review and reporting. Must have thorough working knowledge of regulatory guidelines and have previous experience writing and submitting final reports suitable for submission to the FDA. Must have excellent communication skills and work directly with clients. Previous experience with word processing, database and LIMS systems is required. You will be expected to represent Alta during FDA and client audits. The ideal candidate will have a Bachelor of Science degree in chemistry or equivalent and at least 5 years of CRO or industry experience as Principal Investigator or related position.

This key position is directly related to Alta's continued success and reputation as one of the leading bioanalytical LC/MS/MS contract laboratories in the industry. We are located in the Sierra foothills east of Sacramento between San Francisco and Lake Tahoe. The area offers an attractive northern California lifestyle that is affordable and family oriented. We offer a challenging and excellent work environment that encourages self-motivation and offers opportunities for career advancement. Interested candidates should send resumes by email: lcms2@altalab.com , mail: HR-Box #18, 1104 Windfield Way, El Dorado Hills, CA 95762 or FAX: HR-Box #0, 916-673-0106, DOE/EOE.
