

Chromatography Specialist for HPLC Columns

MAC-MOD Analytical is seeking to add a key employee to its staff, a Chromatography Specialist for HPLC columns. This employee will be responsible for providing technical assistance to customers, including offering applications advice, troubleshooting chromatography problems, and resolving product complaints. In addition, the Chromatography Specialist will be responsible for developing sales at targeted accounts, managing our database of customers, managing our exhibits at technical conferences, and presenting seminars and technical papers related to our HPLC columns. This will be a key position in helping us build brand preference and grow sales for our HPLC columns by ensuring customer satisfaction with our products and maintaining customer confidence in MAC-MOD Analytical as a competent, reliable supplier of HPLC columns.

The candidate for this job must enjoy the challenges of working in a small company and an entrepreneurial environment where their contribution will have a significant impact on the success of the company. A minimum of a Bachelor's degree in science is required, with an advanced degree in chemistry or biochemistry desired. An excellent knowledge of HPLC is essential for this position.

This position is located in Chadds Ford, Pennsylvania and requires about 25% travel.

Please submit resume to MAC-MOD Analytical, Inc., 103 Commons Court, Chadds Ford, PA 19317, Attention: Robert Moody
